Emmanuel Kibet Korir

Nairobi, Kenya | ekorir555@gmail.com | GitHub: Korir555 | Portfolio

Profile

Cybersecurity student and emerging threat detection specialist with hands-on SIEM operations, incident response, and vulnerability assessment experience. Building expertise in enterprise security operations, compliance automation, and penetration testing through portfolio projects aligned to Safaricom SOC, Equity Bank compliance, and security engineering roles.

Skills

Defensive Security

- SIEM Operations & Log Analysis (Wazuh, Elasticsearch, Kibana)
- Incident Response & Threat Hunting
- Security Audit & Compliance (GDPR, HIPAA, PCI-DSS, ISO27001)
- Vulnerability Assessment & Remediation Prioritization

Offensive Security

- Web Application Penetration Testing (OWASP Top 10)
- Digital Forensics & Incident Analysis (Volatility, Sleuthkit)
- Threat Modeling & Risk Assessment (STRIDE, PASTA)

Tools & Platforms

Wazuh, Elasticsearch, Kibana, OWASP ZAP, Volatility, Sleuthkit, Python, Flask, SQL, Docker, Git

Compliance & Governance

Compliance Automation (GDPR, HIPAA, PCI-DSS), GRC Framework Implementation, Risk Assessment & Control Mapping

Experience

Industrial Attachment — Cybercrime & Digital Forensics

Kasarani Police Station, Nairobi | Sept – Dec 2026

- Conducted digital forensics analysis on evidence devices
- Documented chain of custody procedures aligned to Kenya Cybercrime Act
- Collaborated with investigators on case analysis and timeline reconstruction

Freelance AI Evaluator

Outlier AI | Ongoing

- Evaluate AI model outputs for accuracy, bias, and alignment
- Provide detailed feedback on language model performance

AI/ML Club Leadership

Open University of Kenya | 2024 – Present

- Lead 6-agent content pipeline project for multi-source data aggregation
- Coordinate club projects and mentorship for emerging members

Portfolio: 8 Featured Projects + 25 Supporting Labs

Full portfolio: https://korir555.github.io/cybersecurity-portfolio/ | All projects on GitHub

Featured Projects (Deep Case Studies)

- **Wazuh SIEM Dashboard (#17)** — Enterprise log aggregation, real-time alert correlation, automated incident response. Safaricom SOC operations focus.
- **Incident Response Simulator (#07)** — Multi-stage APT scenarios, interactive training, MITRE ATT&CK alignment.
- **Security Audit Dashboard (#15)** — GDPR, HIPAA, PCI-DSS, ISO27001 compliance automation. Equity Bank compliance focus.
- **GRC Risk Assessment Framework (#25)** — Enterprise risk scoring, vulnerability correlation, control mapping.
- **Phishing Detection Model (#08)** — ML ensemble (Random Forest + SVM + Neural Network), 96% lab accuracy.
- **Digital Forensics Lab (#31)** — Disk/memory analysis, chain of custody, Kenya Cybercrime Act alignment.
- **Web App Security Scanner (#13)** — OWASP Top 10 automated scanning, vulnerability prioritization, remediation guidance.
- **Threat Modeling Suite (#32)** — STRIDE/PASTA threat modeling, DFD builder, risk matrices.

Supporting Labs (25 projects): Red Team, Blue Team, SIEM, Threat Intel, Security Tools, GRC, Purple Team operations.

Education

BSc Cybersecurity & Digital Forensics

Open University of Kenya | Expected 2028

Cybersecurity fundamentals, forensic analysis, compliance frameworks, AI/ML Club leadership.

Resources

- **WordPress Pentest Report (sample):** Full report
- **Screenshot Guide & Lab Demonstrations:** Guide

Certifications & Goals

- CompTIA Security+ (target: Nov–Dec 2026)
- Pursuing Security Engineering roles in enterprise environments
